

Engine Clean

Engine & Mechanical Parts Cleaner & Degreaser

TECHNICAL DATA SHEET

DESCRIPTION

ENGINE CLEAN is a premium blend of odorless mineral spirits, solvents, emulsifiers and detergents, designed to quickly and thoroughly clean engines, transmissions, differentials and most under-the-hood components.

Entirely safe for rubber and plastic parts, **ENGINE CLEAN** ingredients cut through, soften, dissolve and release oil, grease, sludge, grime and dirt deposits, allowing them to be flushed away with just a rinse of water.

ENGINE CLEAN is also good for degreasing and removing tar and oil from concrete driveways, painted surfaces, chainsaws, garage floors and any other area which may attract a build up of grease.

DIRECTIONS FOR USE

Brush or spray **ENGINE CLEAN** onto the surface to be cleaned and let stand for several minutes. Then simply flush off with water under pressure. Leaves a clean and oil free surface.

Consult a GILCO representative for more information.

PROPERTIES

Appearance :	Liquid
pH (1% solution) :	~9.0
Solubility :	Instant
Fragrance :	Lemony
Color	Clear
